

State Water Resources Control Board

Division of Drinking Water

May 27, 2015
System No.: 1500493

Mr. Randy Arvizu, President
El Adobe Property Owners Association, Inc.
P.O. Box 78163
Bakersfield, CA 93383

RE: **Compliance Order No. 03-12-15R-008**
Violation of Title 22, California Code of Regulations, Section 1166555 (a)(1), for 2015
Year

Dear Mr. Randy Arvizu:

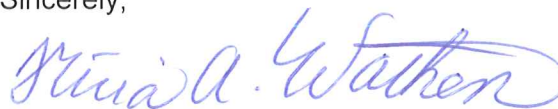

Enclosed is a Compliance Order issued to the El Adobe Property Owners Association, Inc. (Water System) public water system.

The Water System will be billed at the Division's hourly rate (currently estimated at \$126.00) for the time spent on issuing this Citation. The California Health and Safety Code Section 116577 provides that a public water system must reimburse the Division for actual costs incurred by the Division for specified enforcement actions, including but not limited to, preparing, issuing and monitoring compliance with a citation. At this time, the Division has spent approximately 1 ½ hours on enforcement activities associated with this violation.

The Water System will receive a bill sent from the Division of Drinking Water Fee Billing Unit in August of the next fiscal year. This bill will contain fees for any enforcement time spent for the current fiscal year.

If you have any questions regarding this letter and the enclosed citation, please contact Shen Huang at (559) 447-3484 or me at (559) 447-3300.

Sincerely,

Tricia A. Wathen, P.E.
Senior Sanitary Engineer, Visalia District

21 The State Water Resources Control Board (hereinafter "Board"), acting by and
22 through its Division of Drinking Water (hereinafter "Division") and the Deputy Director
23 for the Division (hereinafter "Deputy Director"), hereby issues this compliance order
24 (hereinafter "Order") pursuant to Section 116655 of the California Health and Safety
25 Code (hereinafter "CHSC") to El Adobe Property Owners Association, Inc. for
26 violation of CHSC section 116555(a)(1) and Title 22, California Code of Regulations
27 (hereinafter "CCR"), Section 64431.

APPLICABLE AUTHORITIES

CHSC, Section 116555(a)(1) states in relevant part:

- (a) Any person who owns a public water system shall ensure that the system does all of the following:
- (1) Complies with primary and secondary drinking water standards.

CHSC, Section 116655 states in relevant part:

- (a) Whenever the department determines that any person has violated or is violating this chapter, or any permit, regulation, or standard issued or adopted pursuant to this chapter, the director may issue an order doing any of the following:
- (1) Directing compliance forthwith.
 - (2) Directing compliance in accordance with a time schedule set by the department.
 - (3) Directing that appropriate preventive action be taken in the case of a threatened violation.
- (b) An order issued pursuant to this section may include, but shall not be limited to, any or all of the following requirements:
- (1) That the existing plant, works, or system be repaired, altered, or added to.
 - (2) That purification or treatment works be installed.
 - (3) That the source of the water supply be changed.
 - (4) That no additional service connection be made to the system.
 - (5) That the water supply, the plant, or the system be monitored.
 - (6) That a report on the condition and operation of the plant, works, system, or water supply be submitted to the department.

Title 22, CCR, Section 64431 (hereinafter “Section 64431”), states in relevant part:

Public water systems shall comply with the primary MCLs in table 64431-A as specified in this article.

Table 64431-A
Maximum Contaminant Levels
Inorganic Chemicals

<i>Chemical</i>	<i>Maximum Contaminant Level, mg/L</i>
Aluminum	1.
Antimony	0.006
Arsenic	0.010
Asbestos	7 MFL*
Barium	1.
Beryllium	0.004
Cadmium	0.005
Chromium	0.05
Cyanide	0.15
Fluoride	2.0
Hexavalent chromium	0.010
Mercury	0.002
Nickel	0.1
Nitrate (as NO ₃)	45.
Nitrate+Nitrite (sum as nitrogen)	10.
Nitrite (as nitrogen)	1.
Perchlorate	0.006
Selenium	0.05
Thallium	0.002

* MFL=million fibers per liter; MCL for fibers exceeding 10 um in length.

Title 22, CCR Section 64432 (hereinafter "Section 64432") provides in relevant part:

Section 64432

...

(g) If the level of any inorganic chemical, except for nitrate, nitrite, nitrate plus nitrite, or perchlorate, exceeds the MCL, the water supplier shall do one of the following:

(1) Inform the Department within 48 hours and monitor quarterly beginning in the next quarter after the exceedance occurred; or

(2) Inform the Department within seven days from the receipt of the analysis and, as confirmation, collect one additional sample within 14 days from receipt of the analysis. If the average of the two samples collected exceeds the MCL, this information shall be reported to the Department within 48 hours and the water

supplier shall monitor quarterly beginning in the next quarter after the exceedance occurred.

(h) If the concentration of an inorganic chemical exceeds ten times the MCL, within 48 hours of receipt of the result the water supplier shall notify the Department and resample as confirmation. The water supplier shall notify the Department of the result(s) of the confirmation sample(s) within 24 hours of receipt of the confirmation result(s).

(1) If the average concentration of the original and confirmation sample(s) is less than or equal to ten times the MCL, the water supplier shall monitor quarterly beginning in the quarter following the quarter in which the exceedance occurred.

(2) If the average concentration of the original and confirmation sample(s) exceeds ten times the MCL, the water supplier shall, if directed by the Department;

(A) Immediately discontinue use of the contaminated water source; and

(B) Not return the source to service without written approval from the Department.

(i) Compliance with the MCLs shall be determined by a running annual average; if any one sample would cause the annual average to exceed the MCL, the system is immediately in violation. If a system takes more than one sample in a quarter, the average of all the results for that quarter shall be used when calculating the running annual average. If a system fails to complete four consecutive quarters of monitoring, the running annual average shall be based on an average of the available data.

STATEMENT OF FACTS

The El Adobe Property Owners Association, Inc. water system (hereinafter "Water System") is a community water system located in Kern County that supplies water for domestic purposes to approximately 200 individuals through approximately 80 service connections. The Water System operates under Domestic Water Supply Permit No. 03-12-13P-001 issued on March 4, 2013. The Water System is a community public water system as defined in CHSC, section 116275.

1 The Water System utilizes two groundwater wells as its source of domestic water,
2 Well No. 01 and Well No. 02. Title 22, CCR, Division 4, Chapter 15, Article 4,
3 establishes primary drinking water standards and monitoring and reporting
4 requirements for inorganic constituents. Community and nontransient noncommunity
5 water systems must comply with the maximum contaminant level for arsenic of
6 0.010 mg/L, as established in Title 22 CCR Section 64431.
7

8 Samples collected from the Water System on January 26, 2010, showed arsenic
9 concentrations of 0.021 mg/L in Well No. 01 and 0.016 mg/L in Well No. 02.
10 Therefore, in accordance with Section 64431 (g), the Water System was required to
11 begin quarterly arsenic monitoring of each well, unless it chose to submit an
12 additional sample, which it did not do. Section 64431 (i) provides that compliance
13 with the arsenic MCL is based on a "running annual average" (RAA) of the quarterly
14 monitoring samples, computed each quarter. Further, Section 64431 (i) states: "if
15 any one sample would cause the annual average to exceed the MCL, the system is
16 immediately in violation."
17

18 A summary of the Water System's arsenic monitoring is presented in Table 1 and
19 Table 2 below. All results are as reported to the Division by the laboratory that
20 performed the analysis.
21
22
23
24
25
26
27

Table 1: Well No. 01 Arsenic Monitoring Results

Sample Quarter	Sample Date	Sample Result
2 nd Quarter of 2014	04/07/2014	0.0050 mg/L
3 rd Quarter of 2014	07/02/2014	0.0240 mg/L
4 th Quarter of 2014	10/06/2014	0.0043 mg/L
1 st Quarter of 2015	01/12/2015	0.0099 mg/L
2 nd Quarter of 2015	04/06/2015	0.0050 mg/L
2nd Quarter 2015 Running Annual Average	0.011 mg/L	

Table 2: Well No. 02 Arsenic Monitoring Results

Sample Quarter	Sample Date	Sample Result
1 st Quarter of 2014	01/09/2014	0.0200 mg/L
2 nd Quarter of 2014	04/07/2014	0.0100 mg/L
3 rd Quarter of 2014	07/02/2014	0.0057 mg/L
4 th Quarter of 2014	10/06/2014	0.0210 mg/L
1 st Quarter of 2015	01/12/2015	0.0045 mg/L
2 nd Quarter of 2015	No sample taken – well offline	
1st Quarter 2015 Running Annual Average	0.010 mg/L	

The 2nd quarter 2015 RAA for Well No. 01, calculated as the 4 quarterly sample results averaged over a four quarter period, is 0.011 mg/L, which exceeds the arsenic MCL of 0.010 mg/L. Results of samples taken from water produced from Well No. 01 since 2010 show the RAA for arsenic in said Well has not exceeded the arsenic MCL; however, samples were not taken regularly every quarter during 2011-2012. The 1st quarter 2015 RAA for Well No. 02 is 0.010 mg/L, which does not exceed the arsenic MCL. Well No. 02 has generally exceeded the MCL since 2010. Historical arsenic results for the 2 wells are provided in Attachment D.

The Water System was previously in violation of the Arsenic MCL. Compliance Order No. 03-19-100-002 was issued to the Water System on September 27, 2010, for that violation. This compliance order replaces and voids Compliance Order No. 03-19-100-002, and its directives.

DETERMINATIONS

Based on the above Statement of Facts, the Division has determined that the Water System has violated CHSC, Section 116555 and Section 64431 in that the water produced by Well No. 01 during the 2nd quarter of 2015, exceeded the arsenic MCL as shown in Table 1 above, and further has determined that said violation has continued through the date of this Order.

DIRECTIVES

Water System is hereby directed to take the following actions:

1. On or before June 30, 2018, comply with Title 22, CCR, Section 64431 and remain in compliance.
2. On or before July 1, 2015, submit a written response to the Division indicating its agreement to comply with the directives of this Order and with the Corrective Action Plan addressed herein.
3. Commencing on the date of service of this Order, provide quarterly public notification in English and Spanish in accordance with Attachment A, hereto, of Water System's failure to meet the arsenic MCL during any calendar quarter that the four-quarter running annual average exceeds the MCL.

- 1
2
3 4. Commencing on the date of service of this Order, submit proof of each public
4 notification conducted in compliance with Directive No. 3, herein above, within
5 10 days following each such notification, using the form provided as Attachment
6 B, hereto.
- 7
8 5. Commencing on the date of service of this Order collect quarterly samples for
9 arsenic from each well, as required by Section 64432(g), and ensure that the
10 analytical results are reported to the Division electronically by the analyzing
11 laboratory no later than the 10th day following the month in which the analysis
12 was completed.
- 13
14 6. Prepare for Division approval a Corrective Action Plan identifying improvements
15 to the water system designed to correct the water quality problem (violation of
16 the arsenic MCL) and ensure that the Water System delivers water to
17 consumers that meets primary drinking water standards. The plan shall include
18 a time schedule for completion of each of the phases of the project such as
19 design, construction, and startup, and a date as of which the Water System will
20 be in compliance with the arsenic MCL, which date shall be no later than June
21 30, 2018.
- 22
23 7. On or before August 1, 2015, present the Corrective Action Plan required under
24 Directive No. 6, above, to the Division in person at the Division's offices located
25 at 265 W. Bullard, Suite 101, Fresno, CA 93704. If desired, we are willing to
26 meet in the Division's Bakersfield Office at 4925 Commerce Drive, Suite 120,
27 Bakersfield, CA 93309.

- 1 8. Timely perform the Division approved Corrective Action Plan and each and
2 every element of said plan according to the time schedule set forth therein.
3
- 4 9. On or before August 10, 2015 and every three months thereafter, submit a
5 report to the Division in the form provided as Attachment C, hereto, showing
6 actions taken during the previous calendar three months to comply with the
7 Corrective Action Plan.
8
- 9 10. Not later than ten (10) days following the date of compliance with the arsenic
10 MCL, demonstrate to the Division that the water delivered by Water System
11 complies with the arsenic MCL.
12
- 13 11. Notify the Division in writing no later than five (5) days prior to the deadline for
14 performance of any Directive set forth herein if Water System anticipates it will
15 not timely meet such performance deadline.
16

17 All submittals required by this Order shall be addressed to:

18 Tricia Wathen, Senior Sanitary Engineer
19 State Water Resources Control Board
20 Division of Drinking Water, Visalia District
21 265 W. Bullard Ave, Suite 101
22 Fresno, CA 93704

23 As used in this Order, the date of issuance shall be the date of this Order; and the
24 date of service shall be the date of service of this Order, personal or by certified
25 mail, on the Water System.
26
27

1 The Division reserves the right to make such modifications to this Order and/or to
2 issue such further order(s) as it may deem necessary to protect public health and
3 safety. Such modifications may be issued as amendments to this Order and shall be
4 deemed effective upon issuance.
5

6 Nothing in this Order relieves Water System of its obligation to meet the
7 requirements of the California SDWA, or any regulation, standard, permit or order
8 issued thereunder.
9

10 **PARTIES BOUND**

11 This Order shall apply to and be binding upon Water System, its owners,
12 shareholders, officers, directors, agents, employees, contractors, successors, and
13 assignees.

SEVERABILITY

The Directives of this Order are severable, and Water System shall comply with each and every provision hereof, notwithstanding the effectiveness of any other provision.

FURTHER ENFORCEMENT ACTION

The California SDWA authorizes the Board to: issue a citation with assessment of administrative penalties to a public water system for violation or continued violation of the requirements of the California SDWA or any regulation, permit, standard, citation, or order issued or adopted thereunder including, but not limited to, failure to correct a violation identified in a citation or compliance order. The California SDWA also authorizes the Board to take action to suspend or revoke a permit that has been issued to a public water system if the public water system has violated applicable law or regulations or has failed to comply with an order of the Board; and to petition the superior court to take various enforcement measures against a public water system that has failed to comply with an order of the Board. The Board does not waive any further enforcement action by issuance of this Order.

Instructions for Tier 2 Arsenic MCL Notice Template

Template Attached as Attachment A

Since exceeding the arsenic maximum contaminant level (MCL) is a Tier 2 violation, you must provide public notice to persons served as soon as practical but within 30 days after you learn of the violation [California Code of Regulations Title 22, Chapter 15, Section 64463.4(b)]. **Each water system required to give public notice must submit the notice to the Department for approval prior to distribution or posting, unless otherwise directed by the Department [64463(b)].**

Notification Methods

You must use the methods summarized in the table below to deliver the notice to consumers. If you mail, post, or hand deliver, print your notice on letterhead, if available.

<i>If You Are a...</i>	<i>You Must Notify Consumers by...</i>	<i>...and By One or More of the Following Methods to Reach Persons Not Likely to be Reached by the Previous Method...</i>
Community Water System [64463.4(c)(1)]	Mail or direct delivery ^(a)	Publication in a local newspaper
		Posting in public places served by the water system or on the Internet ^(b)
		Delivery to community organizations
Non-Community Water System [64463.4(c)(2)]	Posting in conspicuous locations throughout the area served by the water system ^(b)	Publication in a local newspaper or newsletter distributed to customers
		Email message to employees or students
		Posting on the Internet or intranet ^(b)
		Direct delivery to each customer

(a) Notice must be distributed to each customer receiving a bill including those that provide their drinking water to others (e.g., schools or school systems, apartment building owners, or large private employers), and other service connections to which water is delivered by the water system.

(b) Notice must be posted in place for as long as the violation or occurrence continues, but in no case less than seven days.

The notice attached is appropriate for the methods described above. However, you may wish to modify it before using it for posting. If you do, you must still include all the required elements and leave the health effects and notification language in italics unchanged. This language is mandatory [64465].

Multilingual Requirement

Spanish. Each public notice must contain information in Spanish regarding (1) the importance of the notice or (2) contain a telephone number or address where Spanish-speaking residents may contact the water system to obtain a translated copy of the public notice or assistance in Spanish.

Non-English Speaking Groups Other than Spanish-Speaking. For each group that exceeds 1,000 residents or 10% of the residents in the community served, whichever is less, the public notice must (1) contain information in the appropriate language(s) regarding the importance of

the notice or (2) contain a telephone number or address where such residents may contact the water system to obtain a translated copy of the notice or assistance in the appropriate language.

Population Served

Make sure it is clear who is served by your water system -- you may need to list the areas you serve.

Corrective Action

In your notice, describe corrective actions you are taking. Do not use overly technical terminology when describing treatment methods. Listed below are some steps commonly taken by water systems with chemical or radiological violations. Use one or more of the following actions, if appropriate, or develop your own:

- "We are working with [local/state agency] to evaluate the water supply and researching options to correct the problem. These options may include treating the water to remove arsenic or connecting to [system]'s water supply."
- "We have stopped using the contaminated well. We have increased pumping from other wells, and we are investigating drilling a new well."
- "We will increase the frequency at which we test the water for arsenic."
- "We have since taken samples at this location and had them tested. They show that we meet the standards."

After Issuing the Notice

Send a copy of each type of notice and a certification that you have met all the public notice requirements to the Department within ten days after you issue the notice [64451(d)]. You should also issue a follow-up notice in addition to meeting any repeat notice requirements the Department sets.

It is recommended that you notify health professionals in the area of the violation. People may call their doctors with questions about how the violation may affect their health, and the doctors should have the information they need to respond appropriately.

It is a good idea to issue a "problem corrected" notice when the violation is resolved.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.

Tradúzcalo o hable con alguien que lo entienda bien.

El Adobe Property Owners Association, Inc. Has Levels of Arsenic Above Drinking Water Standards

Our water system recently failed a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. The maximum contaminant level (MCL) for arsenic is 0.010 mg/L. Compliance is based on a running annual average (RAA) of four consecutive quarterly samples for each well. The arsenic RAA for Well No. 01 is _____ mg/L and the arsenic RAA for Well No. 02 is _____ mg/L for the _____ [1st, 2nd, 3rd, 4th] quarter of _____ [year].

What should I do?

- **You do not need to use an alternative (e.g. , bottled) water supply.** However, if you have specific health concerns, consult your doctor.
- This is not an emergency. If it had been, you would have been notified immediately. However, *some people who drink water containing arsenic in excess of the MCL over many years may experience skin damage or circulatory system problems, and may have an increased risk of getting cancer.*
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What was done?

The Water System is participating in a planning project funded by the State Water Resources Control Board to consolidate with a neighboring water system, Lamont Public Utility District. We anticipate resolving the problem within 3 years.

For more information, please contact _____ [insert name of contact] at _____ [insert phone number] or at the following mailing address: [insert mailing address] _____.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

Secondary Notification Requirements

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.

This notice is being sent to you by Pixley PUD.

Date distributed: _____.

INFORMACIÓN IMPORTANTE SOBRE SU AGUA POTABLE

El Distrito de Agua de la comunidad El Adobe tiene niveles de Arsénico que sobrepasa niveles aceptables de agua potable

Nuestro sistema de agua recientemente falló un estándar de agua potable. Aunque esto no es una emergencia, como nuestros clientes, tienen el derecho de saber que deben de hacer, que pasó, y que estamos haciendo para resolver esta situación.

Rutinariamente tomamos pruebas de agua para contaminantes en el agua potable de nuestro sistema. El estándar estatal y federal, o Máximo Nivel de Contaminante, para arsénico es 0.010 microgramos por litro (mg/L). Cumplimiento con el estándar de arsénico se basa en la concentración promedio de cuatro trimestres consecutivos (o un promedio anual) para cada noria. El promedio anual de concentración de arsénico de Noria 01 fue _____ mg/L [Insert the arsenic concentration for Well No. 01] y Noria 02 fue _____ mg/L [Insert the arsenic concentration for Well No. 02] para el [Select the quarter that pertains; delete the others: <1st> primero, <2nd> segundo, <3rd> tercero, <4th> cuarto] trimestre del ____ [year].

¿Qué es lo que debo de hacer?

- Usted no necesita usar una fuente alternativa de agua (por ejemplo, agua embotellada). Aunque, si tiene preocupación específica de salubridad, consulte con su doctor.
- Esto no es una emergencia. Si fuese, habría sido informado inmediatamente. Aunque, algunas personas que toman agua que tiene arsénico en exceso del MCL por muchos años puedan tener la piel dañada, o problemas del sistema circulatorio, y puedan tener un nivel más alto de riesgo de contraer cáncer.
- Si acaso tiene preocupaciones de salubridad, o le concierne el consumo de agua, puede consultar con su doctor.

¿Que pasó? ¿Que se hizo?

El Sistema de Agua está participando en un proyecto de planificación que está fondado por la Mesa Estatal de Recursos Hídricos para consolidar con sistema cercano de agua en la comunidad de Lamont. Nos anticipamos que este problema esté resuelto en 3 años.

Para más información, favor de ponerse en contacto con _____ <Insert contact name> al (____) _____ - _____ o a la siguiente dirección: _____ <Insert address>.

Por favor comparta esta información con todos aquellos que usen este sistema de agua, especialmente con aquellos que no hayan recibido esta noticia directamente (por ejemplo, gente que viva en apartamentos, hogares de cuidado, escuelas, y negocios). Usted puede hacer esto poniendo éste aviso en un lugar público o distribuyendo copias directamente o por correo.

Requerimientos de Notificación Secundaria

Al recibir notificación del operador del sistema del agua, la siguiente noticia debe ser dada en 10 días [Sección 11645(g) del Código de Salubridad y Sanidad]:

- Escuelas: Deben notificar a los empleados escolares, estudiantes, y padres (si los estudiantes son menores).
- Dueños o Manejadores de Propiedades de Renta Residenciales (incluyendo residencia de ancianos y otras facilidades de asistencia) deben notificar a los inquilinos.
- Dueños, Manejadores, u Operadores: Deben notificar a los empleados de negocios localizados en las propiedades.

Esta noticia se las manda el Distrito de la Agua de El Adobe.
